

Section 4. Review.

Your Club Development Plan should be a working document that is continually updated and reviewed. The club's development plan should be a regular agenda item at Club Management Committee meetings, providing an update on achievements to date and planned action in the future.

Your County Cricket Development Manager upon request will support you to review the last twelve months, and set realistic timescales for the planned development you want to achieve over the next twelve months.

Amendments to your Club Development Plan should be made and widely communicated across the club membership. The person responsible for this should be clearly made aware of their responsibilities and the importance of such communication.

You should carry forward actions not completed from the previous twelve months and identify further actions for the next year. You should continually relate this process to the objectives you have set and the club's mission statement.

This process of review ensures your club continues to move forward, at the right pace and is achieving objectives that are important to your club. You should repeat the review process every twelve months, continually looking twelve months in advance.

The ensure consistency across the country and between clubs, the game of cricket has pre-determined the time at which club development plans will be reviewed. Club development plans are required to be reviewed before 30th September annually. Even though this date has been pre-determined, clubs should still identify who will lead the review process and associated communication and actions.
